CONTENTS OF VOLUME 92

Vol. 92C, No. 1

M. M. Fernando	1	Monoaminergic nerves in the skin of plaice *Pleuronectes platessa* (L.)
T. Gabryelak, G. Zalesna, H. Roche and G. Pérès	5	The effect of MS 222 an anaesthetic on the peroxide metabolism enzymes in erythrocytes of freshwater and marine fish species
M. C. S. Brown, G. C. Lunt and A. Stapleton	9	Further characterisation of the [^{35}S]-TBPS binding site of the GABA receptor complex in locust (*Schistocerca gregaria*) ganglia membranes
J. E. Morgan, C. G. Norey, A. J. Morgan and J. Kay	15	A comparison of the cadmium-binding proteins isolated from the posterior alimentary canal of the earthworms *Dendrodrilus rubidus* and *Lumbricus rubellus*
Yu. S. Khotimchenko and I. I. Deridovich	23	The effect of dopamine and galoperidol on cyclic AMP in the gonad of the bivalve mollusc *Mizuhopecten yessoensis* and the sea urchin *Strongylocentrotus intermedius*
A. O. Savage	27	A comparison of the actions of 4-aminopyridine, caffeine and quinine on the toad isolated rectus abdominis muscle
D. Girdlestone, S. G. H. Cruickshank and W. Winlow	35	A system for the application of general anaesthetics and other volatile agents to superfused, isolated tissue preparations
D. Girdlestone, S. G. H. Cruickshank and W. Winlow	39	The actions of three volatile general anaesthetics on withdrawal responses of the pond-snail *Lymnaea stagnalis* (L.)
B. Griffond and K. Mounzih	45	*In vitro* inhibition of methionine incorporation in the dorsal bodies of *Helix aspersa* by synthetic FMRFamide
P. Lindström-Seppä, P. J. Vuorinen, M. Vuorinen and O. Hänninen	51	Effect of bleached kraft pulp mill effluent on hepatic biotransformation reactions in vendace (*Coregonus albula* L.)
C. C. Kupsh and G. A. Robinson	55	Linearity of the accumulation of various dosages of uranium in the major organs of mature male Japanese quail. Effect of various doses of estradiol-17β
N. Fujishiro and H. Kawata	61	Twitch potentiation of frog (*Rana japonica*) skeletal muscle by antipyrine
G. S. Bondy and P. A. Gentry	67	Characterization of the normal bovine platelet aggregation response
C. J. Gordon, L. Fogelson and A. G. Stead	73	Temperature regulation following nickel intoxication in the mouse: effect of ambient temperature
J. Machado, J. Coimbra and C. Sá	77	Shell thickening in *Anodonta cygnea* by TBTO treatments
M. T. Ivy and J. G. Townsel	81	A vinblastine sensitive high affinity choline uptake system
K. Gromysz-Kałkowska, E. Szubartowska and E. Kaczanowska	89	Testosterone as a factor modifying the toxicity of Ekatin for the Pharaoh quail (*Coturnix coturnix* Pharaoh). I. Mature birds
N. Y. S. Woo, E. L. P. Chan and K. L. Yu	95	Vasoactive properties of dihomo-γ-linolenic acid and series one prostaglandins in a freshwater teleost, *Channa maculata*

G. Aldman, A.-C. Jönsson, J. Jensen and S. Holmgren 103 Gastrin/CCK-like peptides in the spiny dogfish, *Squalus acanthias*; concentrations and actions in the gut

M. Y. Iscan, E. Buyukbingol, M. Iscan, F. Sahin and C. Safak 109 Effects of 2-arylbenzimidazoles on rat hepatic microsomal monooxygenase system

T. Piek, J. O. Schmidt, J. M. de Jong and P. Mantel 117 Kinins in ant venoms—a comparison with venoms of related Hymenoptera

A. E. Pinkney, D. A. Wright, M. A. Jepson and D. W. Towle 125 Effects of tributyltin compounds on ionic regulation and gill ATPase activity in estuarine fish

J. L. Ram and M. L. Ram 131 Synthetic egg-laying hormone of *Aplysia*: quantitative studies of induction of egg laying in *Stylocheilus* and of the activation of *Aplysia* buccal neuron B16

M. A. McElligott, A. Barreto Jr and Lee-Yuh Chaung 135 Effect of continuous and intermittent clenbuterol feeding on rat growth rate and muscle

S. De Jesus and F. L. Renaud 139 Phagocytosis in *Tetrahymena thermophila*: naloxone-reversible inhibition by opiates

K. Temma, M. Akamine, T. Shimizu, T. Kitazawa, H. Kondo and T. Ohta 143 Histamine directly acts on β-adrenoceptors as well as H_1-histaminergic receptors, and causes positive inotropic effects in isolated ventricular muscles of carp heart (*Cyprinus carpio*)

K. Temma, Y. Komazu, Y. Shiraki, T. Kitazawa and H. Kondo 149 The roles of α- and β-adrenoceptors in the chronotropic responses to norepinephrine in carp heart (*Cyprinus carpio*)

M. J. Dales, H. Huddart and N. R. Price 155 The distribution of malathion and some of its metabolites in tissues of the American cockroach, *Periplaneta americana*

K. Yamaguchi, M. Hirata, T. Ishimatsu and H. Kuriyama 163 Ca^{2+} dependence of inositol 1,4,5-trisphosphate 3-kinase activity in the cytosol fraction of pig coronary artery

Vol. 92C, No. 2

S. S. Gamundi, M. C. Proto and A. Coviello 167 Effect of alpha-2 adrenergic receptor stimulation on short-circuit current across isolated skin of the toad *Bufo arenarum*

M. Makary, H. L. Kim, S. Safe, J. Womack and G. W. Ivie 171 Induction of glutathione *S*-transferases in genetically inbred male mice by dietary ethoxyquin hydrochloride

T. Piek, B. Hue, A. Lind, P. Mantel, J. van Marle and J. H. Visser 175 The venom of *Ampulex compressa*—effects on behaviour and synaptic transmission of cockroaches

J. C. Frandsen and L. W. Bone 185 Prostanoids of nematodes: prostaglandins and thromboxane B_2 from *Trichostrongylus colubriformis* and *Turbatrix aceti*

P. B. Lobel 189 The effect of dithiothreitol on the subcellular distribution of zinc in the cytosol of mussel kidney (*Mytilus edulis*): isolation of metallothionein and a unique low molecular weight zinc-binding ligand

C. Nishino, K. Kobayashi and M. Fukushima 193 Receptor participation of the American cockroach sex pheromone periplanone A assigned to a germacratrienone oxide structure

P. Walday and F. Fonnum 197 A comparative pharmacological characterization of cholinesterases in salmon (*Salmo salar*) brain and sealice (*Lepeophtheirus salmonis*)

C. Brinck, M. Carlberg and R. Elofsson	201	Identification of L-3,4-dihydroxyphenylalanine in the brain of the crayfish *Pacifastacus leniusculus* (Dana) and in tentacles of the sea anemone *Metridium senile* (L.) by use of gas chromatography–mass spectrometry
D. X. Zhang, J. C. Hackman and R. A. Davidoff	205	Excitotoxicity, reflex responses, and evoked changes in extracellular potassium in the frog spinal cord
W. G. Landis, N. A. Chester, M. V. Haley, D. W. Johnson, R. M. Tauber and H. Dupont Durst	211	Alternative substrates and an inhibitor of the organophosphate acid anhydrase activities of the protozoan, *Tetrahymena thermophila*
P. Pierobon, M. Kemali and N. Milici	217	Substance P and hydra: an immunohistochemical and physiological study
A. A. Elskus and J. J. Stegeman	223	Further consideration of phenobarbital effects on cytochrome P-450 activity in the killifish, *Fundulus heteroclitus*
T. Abe, Y. Yamada and J. Fukami	231	Correlation of the structures of diethylphosphate phenylesters to housefly acetylcholinesterase inhibition, their side effects and toxicity
J. R. Baker and R. M. Pitman	237	Localization of biogenic amine-containing neurones in the ventral nerve cord of the cockroach (*Periplaneta americana*)
R. M. Pitman and J. R. Baker	245	Dopamine responses recorded from a common inhibitory motoneurone of the cockroach (*Periplaneta americana*)
C. R. Anderson, G. Campbell and M. Payne	253	Metabolic origins of 5-hydroxytryptamine in enteric neurons in a teleostean fish (*Platycephalus bassensis*), a toad (*Bufo marinus*) and the guinea-pig
M. Aminlari, H. Gilanpour, H. Taghavianpour and T. Veseghi	259	Comparative studies on the distribution of rhodanese and β-mercaptopyruvate sulfurtransferase in different organs of sheep (*Ovis aries*) and cattle (*Bos taurus*)
G. E. Nilsson	263	Organ distribution of aldehyde dehydrogenase activity in the frog, *Rana esculenta* L.
F. D. Sikoki, R. A. Tubb and L. R. Curtis	267	Elevation of sex steroids and inhibition of UDP-glucuronyltransferase are out of phase during gonadal maturation in the common carp
Kah Hwi Kim, A. Yongsiri, H. Takeuchi, M. Onozuka, K. Kubo and S. Deura	273	Identification of giant neurones in the dorsal surface of the suboesophageal ganglia of Japanese domestic snail (*Euhadra congenita hickonis* Kobelt)
C. Y. Lee and W. W. Lin	279	Two subtypes of acetylcholinesterase isoenzymes distinguishable by *Angusticeps*-type toxin F_7
T. Hirata, I. Kubota, M. Imada, Y. Muneoka and M. Kobayashi	283	Effects of the catch-relaxing peptide on molluscan muscles
T. Hirata, I. Kubota, M. Imada and Y. Muneoka	289	Pharmacology of relaxing response of *Mytilus* smooth muscle to the catch-relaxing peptide
I. Balzer and R. Hardeland	297	Structural specificity of catecholamine action in the dinoflagellate, *Gonyaulax polyedra*
F. A. Steiner and D. Felix	301	Effects of hypothalamic releasing hormones and biogenic amines on identified neurones in the circumoesophageal ganglia of the water snail (*Planorbis corneus*)
T. Abe, N. Kawai and A. Miwa	309	Blocking of repetitive response from a neuromuscular preparation of *Tenebrio molitor* by phosphotriesters

G. A. Bubenik and R. D. Brown	315	The effect of yohimbine on plasma levels of T_3, T_4 and cortisol in xylazine-immobilized white-tailed deer
T. Pelissier, H. Saavedra, D. Bustamante and C. Paeile	319	Further studies on the understanding of *Octodon degus* natural resistance to morphine: a comparative study with the Wistar rat
U. Hoeger and E. Florey	323	Catecholamine degradation in the hemolymph of the Chinese crab, *Eriocheir sinensis*
J. Kam, M. Waron, Y. R. Barishak, E. Schachner and J. S. Ishay	329	Intraocular pressure in cats is lowered by drops of hornet venom
S. E. Banner, R. H. Osborne, M. J. Walker and K. J. Cattell	333	The pharmacology of the isolated foregut of the locust *Schistocerca gregaria*—III. Identification of an octopamine$_2$ receptor
E. Fuchs, J. H. Dustmann, H. Stadler and F. W. Schürmann	337	Neuroactive compounds in the brain of the honeybee during imaginal life
D. A. Sakharov, L. Hiripi and J. Salánki	343	Pharmacologically induced stereotyped locomotory movements in the pelecypod mollusc, *Anodonta cygnea*
I. A. Skul'sky, I. V. Burovina, V. F. Vasilyeva, O. N. Lukyanova, V. A. Nikiforov and I. G. Syasina	349	Uptake and microlocalization of cadmium in marine bivalve mollusc tissues
R. Dallinger, H. H. Janssen, A. Bauer-Hilty and B. Berger	355	Characterization of an inducible cadmium-binding protein from hepatopancreas of metal-exposed slugs (Arionidae, Mollusca)
K. S.-Rózsa and T. L. Dyakonova	361	Interaction of serotonin and leu-enkephalin on the habituating central neurons of *Helix pomatia* L. *in situ* and *in vitro*
B. Kurelec and S. Krča	371	Glucuronides in mussel *Mytilus galloprovincialis* as a possible biomonitor of environmental carcinogens
M. D. Tuersley and C. R. McCrohan	377	Post synaptic actions of serotonergic cerebral giant cells on buccal motoneurones in the snail *Lymnaea stagnalis*
J. H. Coakley, M. J. Jackson, A. J. M. Wagenmakers, D. Ensor and R. H. T. Edwards	385	Effect of mazindol on dystrophic mice and on growth in young rats
A. Vehovszky, A. J. Bokisch, P. Krogsgaard-Larsen and R. J. Walker	391	Pharmacological profile of gamma-aminobutyric acid (GABA) receptors of identified central neurones from *Helix aspersa*
A. Nicotra and O. Senatori	401	Some characteristics of mitochondrial monoamine oxidase activity in eggs of carp (*Cyprinus carpio*) and rainbow trout (*Salmo gairdneri*)
D. P. F. Duarte, S. E. Huggins, C. P. Da Costa and A. M. Leal	405	Responses of the three-toed sloth, *Bradypus tridactylus*, to some commonly used pharmacologic agents II. Chloralose and reserpine
R. A. Gleeson, H. G. Trapido-Rosenthal, J. T. Littleton and W. E. S. Carr	413	Purinergic receptors and dephosphorylating enzymes occur in both the gustatory and olfactory systems of the spiny lobster
I. Takayanagi, O. Maeda and K. Koike	419	Effect of aging on presynaptic α_2-adrenoceptor mechanisms in guinea pig ileum
A. de Santis, M. Kemali, N. Milici and P. Russo	425	Substance P and the isolated spinal cord of the frog: an electrophysiological and immunohistochemical study
